Glennings Valley
NSW 2261

Dear Ms Sheffield

Thank you for your letter of 26 July 2007, in which you raised concerns about the treatment of meningococcal disease in our society and the availability of a safe and inexpensive homeopathic prophylactic that can protect against strains of this disease.

I will endeavour to raise your concerns within the appropriate forums and will certainly take your views into account if I am asked to consider the matter.

Once again, thank you for contacting my office regarding this matter.

Yours sincerely

A handwritten signature in cursive script that reads "Helen Shardey".
