Dear Ms Sheffield

Thank you for your letter of 26 July 2007 expressing your support for homeopathic protection against meningococcal disease.

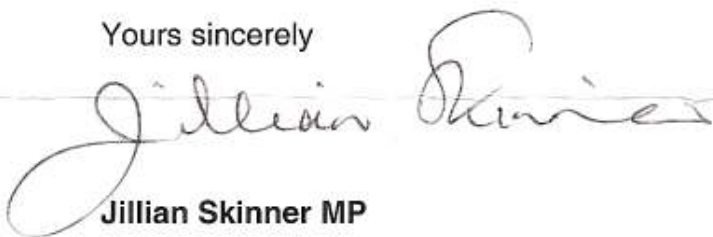

I read your letter with interest and I appreciate your alerting me to the recent studies.

Given that the review and approval of all vaccines and other treatments is the responsibility of the Therapeutic Goods Administration, which is a Commonwealth body, I have forwarded your letter for the attention of my Federal colleague Tony Abbott MP, Minister for Health.

I will contact you as soon as I receive a response.

Thank you again for writing to me.

Yours sincerely

Jillian Skinner MP
